

LEAMSS

Your Pathway Fit Scorecard

Prepared for: **Rahul Verma** · 2026-06-09

Note: This is a “best-fit” ranking to help you shortlist the right pathway — it is **not** an official visa points / CRS score. Final eligibility depends on document verification, skills assessment and current policy. Please consult a LEAMSS expert before any decision.

Best Fit: New Zealand · Skilled Migrant Category

You are a strong candidate with excellent qualifications—your Master's degree, 6 years of software engineering experience, and solid English proficiency (IELTS 7.0–7.5) position you well across multiple skilled migration pathways. While Canada Express Entry (72 points) and Canada PNP (77 points) remain viable, New Zealand's Skilled Migrant Category offers your best chance at success with a strong 78-point score and a straightforward, points-based system.
